

2018 Summer Workshops

Drop the lecture and engage your kids in

Inquiry Science and Critical Thinking Activities

Topic:**Dates:**

Critical Thinking Activities for Teaching Cell Biology

July 9-July 13

Critical Thinking Activities for Teaching Genetics

July 16-July 20

Student-designed Labs and Statistics for AP/IB Science

July 23-July 27

Critical Thinking Activities for Teaching Ecology

July 30-Aug 3

Daily Meeting Times: Mon-Fri 8am-5pm

Location: TBA downtown, Asheville, NC

Tuition: \$550 per workshop

10% discount per any person attending multiple workshops

Each Workshop Focuses On:

- Using hands-on, inquiry-based activities to teach a course in general, advanced, AP or IB Biology; or general, APES or IB ESS experientially
- Practicing student-centered learning techniques such as simulations, modeling, debates and games to increase interest and raise the level of critical thinking
- Introducing new ways to motivate and engage students during test taking, essay writing, mastery of study skills, textbook reading and note taking
- Training teachers to use student-designed lab experiments to teach scientific thinking and prepare for the AP or IB lab requirements (including IAs)
- To help teachers learn classroom management, testing and assessment techniques used with experiential learning
- In-depth review of each concept topic to identify areas of weak content comprehension and dispel misconceptions (for teachers and students!)

Additional Information: All participants will receive 40 hours of Continuing Education Credits and lesson plans covering the week's material in a manner consistent with AP and IB courses.

Be sure to sign up early, these workshops fill up very quickly. Please use the order form on the back of this flier, or go to www.CatalystLearningCurricula.com
